This information is provided for illustrative purposes only and should not be considered in isolation from, or as a substitute for, the historical financial statements of Solstice and Element Solutions. These measures are provided for illustrative purposes and are based on an arithmetic sum of the relevant historical financial measures of Solstice and Element Solutions. Combined Adjusted EBITDA is the arithmetic sum of Solstice's Adjusted Standalone EBITDA and Element Solutions' Pro Forma Adjusted EBITDA, inclusive of expected net synergies. Combined Adjusted EBITDA Margin is inclusive of expected net synergies. These measures do not reflect what the combined company's financial condition or results of operations would have been had the proposed transaction occurred on or prior to the dates indicated. Such illustrative information may differ materially from pro forma information included in SEC filings. Various factors could cause actual future results to differ materially from those currently estimated by management, including, but not limited to, the risks described above and in each of Solstice's and Element Solutions' respective filings with the SEC.

This communication also includes certain financial measures not calculated in accordance with U.S. generally accepted accounting principles ("GAAP"), such as adjusted standalone EBITDA, pro forma adjusted EBITDA, combined adjusted EBITDA, combined adjusted EBITDA margin, combined sales, synergies, integration benefits, free cash flow, net debt and net leverage.
